

**SOLAR ROOFTOP
SOLUTIONS**

Solar Rooftop

Rooftop solar power plants are increasingly gaining popularity across industrial, commercial and residential users due to their relatively lower cost of investments and lesser complexities involved in setting up a plant. These plants provide organizations with a clean energy source and reduces their dependence on fossil fuels. It also significantly reduces their electricity costs. With a typical break-even period of 4-5 years, customers can enjoy free electricity for several years from their captive rooftop plants. In addition to reduced dependence on grid power, any excess power that is generated, can be fed back into the grid by users.

Jakson is amongst the top solar rooftop EPC players in India with a portfolio exceeding 90+MW. We possess years of expertise and in-house engineering capabilities to build innovative rooftop solar power plants of all sizes - from a few Kilowatts to Megawatts - depending on customer requirements. As a leading energy and engineering solutions company, Jakson offers a wide range of products and services that help customers effectively meet their energy needs in a safe and sustainable manner.

Scope of Services

Site Survey

Design & Engineering

Equipment Supply

Installation & Commissioning

Performance Testing

Operation & Maintenance

Key Features

Warranty up to 10 years

Faster Return on Investment

Actual PR to Guaranteed PR more than 100%

Web based monitoring

Power backup for non-sunny days

All solutions under one roof

Our Rooftop Solutions

On-Grid solutions with net/gross metering

- Direct power - sun to home
- Utility grid connected
- Saves money - net metering
- Generation time 6-8 hrs

Off-Grid solutions for remote application

- Battery bank for storing energy
- Energy self sufficiency
- Reliable systems 24x7

Hybrid solutions for power deficit areas

- Compatible with generator
- Grid synchronisation
- Store and sell power in case of surplus production

Reference Projects

Government Buildings

508 KW at President's Estate, Delhi, India

Airports

600 KW at Varanasi Airport, UP, India

Industries

700 KW at PTC Industries, UP, India

Metro Stations

250 KW at DMRC, Delhi, India

Educational Institutes

1 MW at MDU University, Haryana, India

Stadiums

400 KW at Yamuna Sports Complex, Delhi, India

Our Solar Products

Solar Modules
10Wp - 360Wp

On Grid Power Packs
1.5KWp - 50KWp

Off Grid & Hybrid Power Packs
150Wp - 50KWp

Solar LED Street Lights
10W - 60W

Solar Generators
1KW - 3KW

Solar Water Purifiers
20 LPH - 60 LPH - (Liters per hour)

Module Mounting Structures

Containerised Solar Generator
15KW / 25KW

DC Home Lighting
