

- Jakson Group bags contract for O&M of NTPC Bhadla Solar Power Plant

☐ April 30, 2022

By EPR Magazine Editorial

The O&M practices for Bhadla Solar Power Plant will be commenced from 13th May 2022. Further, it will generate numerous employment opportunities.

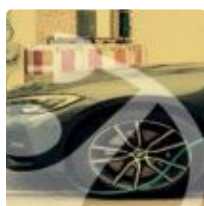

To strengthen its legacy as an energy solution provider, Jakson Group, one of India's fastest-growing energy companies, won a bid for comprehensive operation and maintenance (O & M) for the 260 MW Bhadla Solar PV Plant located at Bhadla Solar Park in BAP, Rajasthan.

Jakson Group will have the responsibility to continuously monitor the site for all kinds of preventive and corrective maintenance issues, including plant performance, and regular upkeep of various plant components and equipment, warranty claims, spare parts inventory, and various other onsite ground services. With the help of technologically advanced methods, the company will commence the operation and maintenance services on May 13, 2022. This will generate employment opportunities and improve the livelihoods of locals.

The solar plant, spread over a total area of 525.39 acres, comprises four sections of 65 MW each. It was initially installed and commissioned by Jakson Group along with Tata Power Solar and Vikram Solar. The plant was commissioned on March 25, 2017, and has been in commercial operation since then.

NTPC invited online bids for O & M on December 29, 2021, for three years, and Jakson Group takes pride in sharing the achievement of its O & M team, which competed with multiple technically qualified companies and emerged as a winner. With a team of experienced industry professionals, Jakson currently manages over 750 MW of solar assets in India.
