## Jakson Group bags another two O&M projects of NTPC – EQ Mag Pro

0 0

**Noida :** Continuing the winning streak, the **Jakson Group**, one of India's fastest-growing energy companies, won a bid for comprehensive Operation and Maintenance (O&M) for a 250 MWp Solar PV Project in Ananthapuram, Andhra Pradesh and a 5 MWp Solar PV Plant in Andaman & Nicobar Islands.

NTPC invited these bids for the Annual Maintenance Contract of both the plants on February 14, 2022, for three years.

The **Jakson Group** will be responsible for regularly monitoring of both sites for all kinds of maintenance works with various plants components and equipment, warranty claims, spare parts inventory and

various other onsite ground services in these territories to ensure smooth & optimum power generation. The services will commence from 1st June 2022 for the 250 MWp Ananthapuram plant and from 1st December 2022 for the 5 MWp Andaman plant. The project is expected to generate local employment opportunities & build livelihoods for many.

The Ananthapuram project was constructed on one of the toughest terrains of Anantapur (area consisting of heavy undulations), and the land contained natural streams, dense vegetation and hillocks and was untouched by the solar power plant to maintain the natural ecosystem.

Ananthapuram Ultra Mega Solar Power Project (250 MWp), situated at NP Kunta Solar Park in District Satyasai, Andhra Pradesh, spread across an area of 1298.27 acres, was commissioned in May 2016. The 5 MWp Grid-connected Solar PV Plant situated at Garacharma in Port Blair, Andaman & Nicobar Islands, is spread across 25 acres & was commissioned on April 2013.

With a 100% average performance rating in 75+ operational sites, **Jakson** O&M business has a strong presence in more than 16 states, and from 60 MW in 2014, its portfolio has grown up to 1.6 GW in 2022.

## About Jakson Group

Established in the year 1947, The **Jakson Group** has diversified from a Diesel Generator Manufacturing Organisation into an Energy Solutions Company, providing expertise in the fields of Distributed Energy, Solar Power, Battery Energy Storage System & Solar and Electrical EPC. The Company has an extensive presence throughout India with 5 manufacturing facilities, 30+ Sales Offices and a wide network of

channel partners and dealers making it one of the top 10 energy companies in India. The company emphasises on providing superior quality products and offers the most viable & cost effective solutions to its clients backed by the long standing expertise in the Energy Industry.
