Diversified energy and infrastructure company Jakson Group has formed its new venture 'Jakson Green Pvt Ltd' (JGPL) with an aim to expand footprints in the renewable energy space.

July 07, 2022. By Manu Tayal

Diversified energy and infrastructure company Jakson Group has formed its new venture 'Jakson Green Pvt Ltd' (JGPL) with an aim to expand footprints in the renewable energy space.

The newly formed entity will be focusing on various lines of businesses including Green Hydrogen & Ammonia, Waste to Energy, Electrolysers and Fuel cells, Utility-scale Battery Energy Storage Systems (BESS), Solar and related Operation & Maintenance services among others.

Commenting on the development, Sameer Gupta, Chairman of Jakson Group, said "we at Jakson Group feel delighted and excited about this new venture and are confident that it will scale great heights under its able leadership. This reflects Jakson Green's commitment to sustainability and we are happy to be part of the vision of our Hon'ble Prime Minister to make India carbon neutral by 2070."

This new venture is a testimony to the company's increasing footprint and focuses on sustainable growth in the renewable energy sector, Jakson Group said in a statement.

In line with the formation of a new venture, the company has appointed Bikesh Ogra as the Chief Executive

Officer and Managing Director of Jakson Green Pvt Limited who carries over 26 years of experience in the energy sector.

In his last assignment, Ogra was the Global CEO of Sterling & Wilson Solar Ltd. He will also be supported by Kannan Krishnan as Chief Operating Officer (COO) of the company.

Additionally, Jakson Group has also signed an agreement with a leading US-based fuel cell manufacturer for pursuing Hydrogen projects in India.

With these new developments, Jakson Group has taken definitive strides, towards significantly increasing its revenue over next three years, it added.

Jakson Group, founded in 1947, has diversified from a diesel generator manufacturing organisation into an energy solutions company, providing expertise in the fields of distributed energy, solar power, battery energy storage system & Solar and Electrical EPC.

The company has an extensive presence throughout India with four manufacturing facilities, 30+ sales offices and a wide network of channel partners and dealers making it one of the top 10 energy companies in India. The company emphasises on providing superior quality products and offers the most viable & cost effective solutions to its clients backed by the long standing expertise in the energy industry.
