

Jakson Group

Jakson Group is a diversified energy and Infrastructure company having expertise in Distributed Energy, Solar Energy, EPC, Hydrogen, Hybrid & Battery Energy Storage Solutions.

Jakson is headquartered in Noida and has four state-of-the-art manufacturing facilities for generating sets, Solar Modules and Battery Energy Storage Systems. The Company employs 5000 people, has a loyal base of over 50,000 customers, and has a pan India presence apart from its presence in SAARC, Middle East and African regions.

Jakson stands as the largest manufacturer of gensets in India, with a total annual capacity of 14,000 gensets and 35,000 acoustic enclosures at two large plants, one in Kalsar, Gujarat, and another in Kathua, Jammu & Kashmir. Apart from this, the Company also has a world-class fully automated module manufacturing plant of 600MW at Greater Noida being scaled up to 1GW and a dedicated manufacturing plant for battery energy storage systems with an annual capacity of 250 units.

Our Distributed Energy Business offers products and solutions in the areas of Diesel Generators, Gas Generators, Solar Roof Top systems, Battery Energy Storage Systems, Special application generating sets for the Defence sector, Hybrid solutions and Microgrids.

Our Solar Business comprises of world-class, fully automated Solar module manufacturing plant which has the capacity of manufacturing high efficiency and high power density solar modules of 1 GW capacity. Our product portfolio also consists of solar inverters and kits. We distribute these products through our 500 plus channel partners and system integrators all over the Country and have now expanded to international geographies.

Our Electrical EPC Business has design and engineering capabilities for delivering projects related to sub-stations, transmission, distribution, rural electrification, railway and metro rail electrification and civil infrastructure projects. We have to our credit Civil EPC projects related to building hospitals

and road construction.

As a testimony to the Company's increasing footprint on sustainable growth, Jakson recently announced its new venture –“Jakson Green” which focuses on Solar EPC and related Operations & Maintenance, Hydrogen & Ammonia, Waste to Energy, Electrolysers and Fuel cells and Utility-scale Battery Energy Storage Systems(BESS).

In terms of other businesses, the Company has investments in the hospitality sector in India and the real estate sector in the United Kingdom.

Today the Company is identified among the Top 10 Energy Solutions Company, Top 10 Solar Companies & Top 5 Roof Top EPC Companies in India.

As a responsible organisation, Jakson proactively meets its environmental, social and governance (ESG) objectives. Furthermore, its CSR initiatives are aligned with sustainable development goals (SDGs) outlined by the United Nations with an emphasis on quality education and climate action.
