Understanding (MoU) with Jakson Green to form a global joint venture for clean energy engineering, procurement and construction (EPC) projects. Both companies will benefit from the partnership's synergy by designing, executing, and delivering EPC projects globally. The alliance will further help in meeting the demand for giga-scale EPC clean energy projects in Middle East and North Africa (MENA), the Commonwealth of Independent States (CIS), and Asia Pacific countries.

In January 2023, Redington Limited announced its partnership with Jakson Group to distribute solar panels and green energy products in south Indian markets of Tamil Nadu, Andhra Pradesh, Telangana, Karnataka, Kerala. As a part of the partnership, Redington will enable the seamless distribution of Jakson's high-quality products such as new high-efficiency solar panels and other technologically advanced products in the solar ecosystem.

Also, in October 2022, Jakson Green signed a MoU with the Rajasthan Government to invest approximately Rs 224 billion in the state. The MoU

intends to establish a 365,000 tons per annum green hydrogen and green ammonia project. The Rajasthan government will be assisting the company for obtaining necessary registrations, approvals, and clearances.
