Company Name : Jakson Group
Friday, February 10, 2017 5:10PM IST (11:40AM GMT)

News Summary

Hon'ble President of India, Shri Pranab Mukherjee today inaugurated a 508 kWp rooftop solar power plant at Rashtrapati Bhawan, installed and commissioned by Jakson Group. This rooftop solar power plant will help generate approximately 7.41 lakh units of green electricity every year and provide power for the electricity needs of the President's Estate.

turnkey engineering, procurement and construction services for the project, Jakson will also provide annual operations and maintenance service to the plant for 5 years.

“Jakson is amongst the top two players in the solar rooftop EPC segment in India. In the past few years we have delivered some of the most challenging and innovative solar rooftop EPC solutions in the country that include rooftop solar powered coaches for the Indian Railways and non-evasive solar rooftop plant at the Yamuna Sports Complex in Delhi amongst others. The Rashtrapati Bhawan project is another feather in our cap” said Sundeep Gupta, Vice-Chairman & Managing Director, Jakson Group.

“We are proud to be associated with such a prestigious project. With our expertise and engineering capabilities in solar EPC projects, we were able to complete this project in record time. It reaffirms our expertise in delivering complex solar EPC projects on time,” added Mr. Sameer Gupta, Chairman & Managing Director, Jakson Group.
