Leadership Message

Dear JAKSONites,

Every quarter gives us a chance to pause, look back, and renew our sense of purpose.

The world around us continues to shift rapidly, energy demands are evolving, customers are more conscious, and responsible growth has never been more important. At JAKSON, this is where we belong: creating solutions that serve customers, strengthen communities, and support a sustainable future.

It's particularly striking how AI is transforming our workplace. A few decades ago, it couldn't be imagined attending sessions where these tools are taught to all of us, making complex tasks feel almost effortless. It's humbling and exciting. Yet, we must embrace these powerful technologies with both openness and responsibility, because great tools also carry real risks. Let's use them to work smarter and collaborate better, while always letting our values, judgement, and human connection guide the way.

As we move forward, we continue to navigate a complex geopolitical environment. With your steady commitment and adaptability, we are confident we will keep steering JAKSON safely through these challenges.

What truly warms our hearts is seeing how each of you shows up every day, whether launching new ideas, delivering projects with excellence, tightening safety standards, nurturing customer trust, or quietly supporting those around us. Your efforts make the bigger journey possible.

And just like Helen Keller said

"Alone we can do so little; together we can do so much", let's keep walking towards our goal, together, committed with discipline and purpose.

Thank you for the pride and dedication you bring to our collective journey every single day.

GROUP

JAKSON

Feature Story

Unveiling Future-Ready Energy Solutions

JAKSON Group expanded its energy solutions portfolio with the launch of JAKSON Genset Xtra, BESS, Solar Kit, Mobile Light Tower and Electric Three-Wheelers. Backed by over 78 years of engineering excellence, the new portfolio reflects JAKSON's focus on building a more integrated, reliable and responsible energy ecosystem for evolving customer needs across India and global markets.

Mr. Alexey Ustinov joins the Board of JAKSON Engineers Limited as an Independent Director.

Bringing global energy sector experience and a strong track record in transformation and sustainable growth, his perspective will add value as JAKSON continues to scale its impact and contribute to the global energy transition.

“Happy to join the Board of JAKSON Engineers Limited as an Independent Director. I look forward to working with my fellow Board members and the leadership team as JAKSON continues its growth journey and contribution to the global energy transition said Alexey Ustinov.

Digital transformation plays a critical role in enabling business efficiency, operational agility and long-term resilience.

This commitment was recognized at the **CII CIO Conclave & Awards**, where **Tarun Anand, Chief Information Officer, JAKSON Group**, was named among the leading CIOs in the Oil, Chemicals, Energy and Utilities category.

People analytics becomes truly meaningful when it reflects the realities of different work environments - from corporate offices and manufacturing units to project sites and field teams.

At the FE HR Summit & Awards 2026, **Anita Maalik, CHRO, JAKSON Group**, shared how responsible data practices, trust and governance can help make people decisions more contextual, fair and empathetic.

BUSINESS UPDATES

INFRA

Feature Story

PM Connect 4.0 Organized

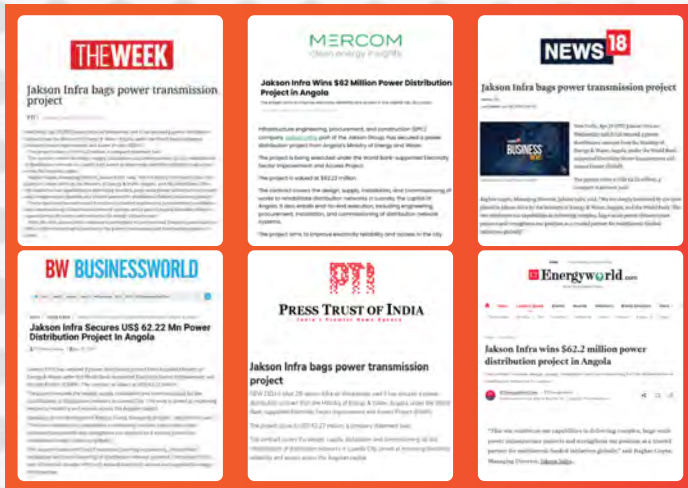

Organized PM Connect 4.0, bringing project managers together to exchange ideas, share experiences and strengthen project execution capabilities. The sessions encouraged knowledge sharing, continuous learning and leadership development.

Achievement

1 Million Safe Man Hours Achieved Across Projects

Achieved over 1 million safe man hours across JJM Basti, RDSS Jhunjhunu, RDSS South 24 Parganas and RDSS Baramati projects. The achievement reflects strong adherence to safety protocols, robust HSE practices and a consistent focus on safe project execution.

JAKSON Infra Wins World Bank-Funded Power Project in Angola

Secured a USD 62.22 million project from the Ministry of Energy & Water, Angola, under the World Bank-backed Electricity Sector Improvement and Access Project. The project covers rehabilitation works for distribution networks in Luanda City.

International Safety Awards 2026

JAKSON Infra was honoured with the International Safety Awards 2026 by the British Safety Council for four projects, including MMRDA, RDSS South 24 Parganas, MSKVY 2.0 RDSS Solapur and Government Medical College & Hospital, Nandurbar. The recognition highlights the organization's continued focus on occupational health and safety.

World Environment Day 2026

JAKSON Infra observed World Environment Day 2026 through employee-led initiatives focused on energy conservation and sustainable workplace practices, reinforcing its commitment to environmental responsibility across operations.

BUSINESS UPDATES

JAKSON GREEN

Feature Story

Celebrating Four Years Together:

We marked our fourth Foundation Day, celebrated shared achievements, growth and the spirit of 'FOUR'wardTogether.

Leadership at CEO Roundtable:

Managing Director Kannan Krishnan shared industry insights on scaling the clean energy transition at the ET Edge GSA CEO Roundtable.

Achievements

Great Place to Work Certified: We earned **Great Place To Work** certification for the second consecutive year, reflecting our strong people-first culture.

SECI Green Ammonia Partnership:

JAKSON Green signed a Green Ammonia Purchase Agreement with SECI to supply 85,000 MTPA through its consortium.

E-Mobility Facility Inaugurated:

JAKSON Green inaugurated its e-mobility manufacturing facility, marking a significant milestone in sustainable mobility manufacturing.

Unveiled a new chapter in clean mobility:

Introduced neEV Bhai & Rahi, JAKSON Green unveiled two purpose-built electric three-wheelers to strengthen efficient and sustainable last-mile mobility.

Campus Placement Drive:

Over 250 candidates from rural Odisha were selected through campus drives, advancing inclusive employment and workforce development.

Safety Recognition:

Received the Platinum Award for excellence in occupational health and safety at its Barmer solar project.

World Environment Day 2026:

Employees reinforced their sustainability commitment through leadership messages, a collective pledge and engaging awareness initiatives.

BUSINESS UPDATES

BIOFUELS

Business Updates

CO₂ Recovery Plant

The 65 TPD CO₂ Recovery Plant at the grain-based ethanol distillery in Balaghat, Madhya Pradesh, is now in operation. The plant captures and purifies high-purity CO₂ generated during fermentation, reducing greenhouse gas emissions and converting process emissions into a valuable industrial product.

Distillers Corn Oil Extraction Plant

Biofuels is investing in a 4 TPD Distillers Corn Oil Extraction Plant, integrated with the existing grain-based distillery. The initiative will recover corn oil from the ethanol production process, improving resource efficiency, reducing process waste and supporting cleaner fuel value chains such as biodiesel and Sustainable aviation fuel.

Asia Agri-Food International 2026, Vietnam

Biofuels participated in Asia Agri-Food International 2026 in Vietnam, engaging with global industry leaders, technology providers and agribusiness stakeholders. The event offered valuable insights into emerging technologies, logistics, supply-demand trends and sustainable agricultural practices.

Recognition as Emerging Exporter

Biofuels was recognized as an Emerging Exporter in the Agri-Trade Business in Vietnam, marking an important step in strengthening its international market presence.

UPDATES

HUMAN RESOURCE

Feature Story

Project Management Excellence Program, Infra

In partnership with **SP Jain Global**, 28 participants completed the 6-month program focused on project planning, execution, stakeholder management, risk mitigation and leadership for complex infrastructure projects.

Six Sigma Green Belt, Distributed Energy

Conducted with **World Class Manufacturing**, the program was completed by 24 participants, strengthening problem-solving, process improvement and data-driven decision-making capabilities.

AI Academy: Building AI Fluency Across Functions

From April to July, the AI Academy focused on enabling teams across the organization to understand and apply AI in meaningful ways. Built around four personas Visionaries, Champions, Experts and Accelerators - the program aims to bring AI fluency closer to every function, not just technology teams.

Visionaries

The journey began in April with 20 leaders attending the Visionaries session, helping them understand the possibilities, limitations and business relevance of AI.

Champions

The Champions cohort followed across four batches, ensuring representation from every function. These participants will help translate AI intent into everyday ways of working.

Technical Experts

Two batches of Technical Experts went deeper into hands-on learning across Jupyter, data architecture, agents and MLOps, building the capability to convert ideas into working solutions.

Capstone Projects

At the end of the training, participants submitted capstone projects focused on embedding AI-led improvements into systems and processes.

What's Next

The Academy will continue with the next group, Accelerators, bringing more opportunities to strengthen AI adoption across the organization.

Rise & Shine with D.I.V.A

The D.I.V.A session, **“Rise & Shine,”** brought women employees together for an inspiring conversation on confidence, authenticity, purpose and meaningful connections.

Celebrating Managerial Growth

Batch 4 of the Managerial Excellence Program concluded with 24 managers certified, strengthening people leadership and team effectiveness.
